From the Principal

School overview

Brighton State School offers a wonderful start for your child's learning. Developing a love of learning, celebrating success and establishing the building blocks for future learning are the core elements of a quality Prep to Six curriculum. Brighton State School is a 100 year old school with a strong tradition that is equally matched with a lively, innovative, engaging and forward looking focus. Our moral imperative is to ensure that every student is achieving and progressing and that every child is really known. We work collaboratively with our community aiming to have every child excited to come to school, having many friends and happy.

Brighton State School is a great school moving to greater. We take pride in our school and the way in which we continuously work together with our school community to provide quality teaching and learning experiences for our students. Brighton State School is a community of learners. We work, play, celebrate, problem solve and learn together. We take pride in our genuine partnership, active participation and open communication with parents and carers along with all members of our school community. Together we continue to build a school based on positive values and attitudes preparing our students today for a successful life tomorrow.

Brighton State School's daily work involves creating a respectful, responsible and safe community of engaged and excited learners striving for personal best. It is our conviction that with these qualities our students and staff can develop a strong foundation to for life long learning. To realise our goal, our curriculum and learning is underpinned and invested in the employment of best practice pedagogies. We seek to engage students in the kinds of learning opportunities appropriate for them as life-long learners and world citizens in an increasingly global and networked society.

We believe our moral purpose to be, the student acquisition of:

- *Educational excellence*
- *Social Responsibility*
- *Learning for the future, and*
- *Continued Personal Growth and Well-Being.*

Reading and Writing, Student and Staff Well Being and a Positive School Environment are the 'main game' at Brighton State School.

It is one hundred years since the Brighton State School opened its doors to 43 students and 2 staff and I feel extremely proud and somewhat honored to be the current school principal. Brighton State School is a respectful, responsible and safe community of joyful learners striving to reach full potential in all areas both inside and outside the classroom.

The way we deliver education to our students has certainly changed over the past 100 years. For current students my wish is that their memories of Brighton State School will be happy ones and that many of the friendships that they have made whilst they were at school are lifelong. My wish is that we have given all students the best start possible in their educational life. Giving them the best possible start in life is every staff's mantra at Brighton State School. My wish is that Brighton State School has contributed to a society of honest, positive, independent, relational, hardworking and empathetic members.

Brighton State School has weathered many 'storms' and been part of much celebration in Australia's history. Experiences of the past have made Brighton State School the outstanding learning institution that it is today. Our enormous respect for the past provides the foundation for continued success as we embark on the next 100 years.

Brighton State School is a 'great school' moving to 'greater' - 'Only The Best'.

Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

Social climate

Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community. Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

Environmental footprint

Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

| Utility category | 2016–2017 | 2017–2018 | 2018–2019 |
|-------------------|-----------|-----------|-----------|
| Electricity (kWh) | | | 130,614 |
| Water (kL) | | | 1,310 |

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.
